DETAILED ACTION

Response to Amendment

1. Receipt is acknowledged of the Amendment filed February 15, 2005. The amendment includes an amended claim 13 and a cancelled claim 15.

Allowable Subject Matter

2. Claims 1-14 are allowed.

The following is an examiner's statement of reasons for allowance: none of the prior art of record, teaches or fairly suggests the bank note processing machine structured as claimed in claims 1-14 comprising, among other things, light from an LED being inputted to a light guide plate and an advance direction of entered light being changed into a perpendicular direction to a light axis of said light plate and light being uniformly emitted from a whole surface of said light guide plate irrespective of a distance from the LED. After further search and thorough examination of the present application and in view of the Applicant's arguments and amendments, claims 1-14 are found to be in condition for allowance over the prior art made of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
